

LARGEST PRIVATE TRADE SKILLS TRAINING CENTRE OPENS IN SOUTHAMPTON

Leading nationwide training provider for mature career changers New Careers Skills has teamed up with Apprenticeship Training Ltd to open the largest private trade skills training centre of its kind in the UK in Hedge End, Southampton. Bringing new jobs and business to the area as well as helping solve the current skills shortage that is facing the South, the new centre provides plumbing and electric courses. It stands at ten thousand square feet and has the capacity to train a hundred individuals at any one time. The live environment of the centre means that as trainees follow the course through theory and practical sessions they do it in the best environment. Training bays filled with fully functional basins, toilets, baths and showers all with running water provide the most realistic training frames possible. Founder of New Career Skills, Tim Adderson said: "We are delighted to join ATL on this venture and bring such a landmark facility to Southampton. We are committed to help fill the skills shortage and this high capacity training centre will make a large contribution to the trades industry."
